SKILLS

Networking
TCP/IP, Cisco, Routing, Switching

Systems
Windows Server, Active Directory, Microsoft 365, VMware / Hyper-V

Programming
React, JavaScript, PHP, Laravel, Python, MySQL, Tailwind CSS

Cybersecurity
Linux, Network Security, Troubleshooting, Security Fundamentals

CERTIFICATES

- CCNA — Cisco Certified Network Associate
- Microsoft 365 Certified — Modern Desktop Administrator Associate
- AZ-900 — Microsoft Azure Fundamentals
- ITIL 4 Foundation
- CompTIA A+
- Google IT Support Professional Certificate

LANGUAGES

Arabic (Native)
English (Professional)

SUMMARY

Computer Engineer specializing in IT support and infrastructure. I enjoy solving complex problems, automating repetitive tasks, and building systems that stay reliable under pressure — from enterprise networks and Active Directory domains to full-stack web applications.

EXPERIENCE

IT Support Engineer — NAQUA Company

2024 – Present

- Deliver first- and second-line IT support across networking, systems and end-user infrastructure.
- Administer Active Directory, Microsoft 365 and Windows Server environments for the organization.
- Maintain and monitor internal network infrastructure, reducing recurring downtime through proactive fixes.
- Document processes and train staff on IT best practices and security hygiene.

IT Support Intern — University Networking Department

2023

- Assisted in the design and maintenance of the university's core networking infrastructure.
- Configured and troubleshoot switches, routers and DHCP/DNS services in lab environments.
- Built internal automation scripts to speed up recurring administrative tasks.

EDUCATION

Bachelor of Computer Engineering — University

2019 – 2023

Focus on computer networks, systems architecture and software engineering. Graduation project: an AI-driven Raspberry Pi hologram (Pepper's Ghost technique).

FEATURED PROJECTS

Windows Server Lab

Full Windows Server 2022 environment with Active Directory, DNS, DHCP and GPO.

Active Directory Lab

Multi-tier Active Directory environment following security best practices.

AI Hologram Teacher

Raspberry Pi hologram with AI voice interaction — graduation project.

Laravel Portfolio Dashboard

Full-stack admin dashboard for projects, certificates and messages.
